

# Children's Network

Children's Network of San Bernardino County concerns itself with "children at-risk" defined as minors who, because of behavior, abuse, neglect, medical needs, educational assessment, or detrimental living situations, are eligible for services from one or more of the Children's Policy Council Member Agencies. Those agencies include:

*Juvenile Court*

*Transitional Assistance*

*Inland Regional Center*

*Probation Department*

*Public Health*

*Preschool Services*

*County Library*

*Public Defender*

*Superintendent of County Schools*

*First 5 San Bernardino*

*Board of Supervisors*

*Department of Children's Services*

*Behavioral Health*

*County Administrative Office*

*Children's Fund*

*Sheriff's Office*

*County Counsel*

*Community Action Partnership*

*Economic and Community Development*

*Arrowhead Regional Medical Center*

*District Attorney's Office*

# Children In California

9,419,970 children live in California

## *A child in California:*

- *is abused or neglected every 4 minutes*
- *is born into poverty every 5 minutes*
- *is killed by gunfire every 19 hours*
- *dies before his or her first birthday every 3 hours*

## California Rankings

### California Ranks:

5th among states in infant mortality  
9th among states in percent of babies born at low birthweight  
13th among states in the percent of babies born to mothers who receive early prenatal care  
29th among states in per pupil expenditures  
40th among states in the percent of children who are poor  
(1st represents the best state for children and 51st represents the worst state for children)

### Child Poverty in California

Number of poor children, 1,714,720  
Percent of children who are poor, 18.6%  
Number of adults and children receiving cash assistance from Temporary Assistance for Needy Families (TANF), 1,106,624  
Maximum monthly TANF cash assistance for a family of three, \$679

### Child Hunger in California

Number of children who receive food stamps, 1,161,170  
Percent of eligible persons who receive food stamps, 54%  
Number of children in School Lunch Program, 2,659,390  
Number of women and children receiving WIC (Supplemental Nutrition Program for Women, Infants & Children), 1,266,542

(continued next page)

## Early Childhood Development in California

Percent of children under age six with all parents in the labor force, 56.5%  
Number of children served by Head Start, 98,767  
Number of children served by the Child Care and Development Block Grant, 202,000  
Average annual cost of child care for a four-year-old in a center, \$4,858

## Child Welfare in California

Number of children who were victims of abuse & neglect, 132,181  
Number of children in foster care, 100,451  
Number of children adopted from foster care, 8,713  
Number of grandparents raising their grandchildren, 271,294

## Education in California

Amount spent per pupil in public school, \$6,314  
Percent of fourth graders reading below grade level, 79%  
Percent of fourth graders below grade level in math, 75%  
Average class size in public schools, 22.4  
Average class size in public secondary schools, 28.5

## Child Health in California

Number of children without health insurance, 1,515,000  
Percent of children without health insurance, 15.2%  
Percent of two-year-olds who are not fully immunized, 26.8%

# 2005 San Bernardino County Data Summary

## *San Bernardino County Children Data*

According to the California Department of Finance projections, there are 572,365 children and youth under the age of 18 years in San Bernardino County.

(Prepared by: Program Analysis and Statistics, County of San Bernardino Department of Public Health)

In June 2003, the rate of San Bernardino County children living in poverty was 237.5 per 1000, representing 135,598 children. (Prepared by: Program Analysis and Statistics, County of San Bernardino Department of Public Health)

In 2004, 39,684 unique children were referred to the Department of Children's Services for suspected child abuse and neglect. That represents an almost 10% increase in referrals received in 2004 as compared to 2003. The Child Maltreatment Rate in San Bernardino County is 10.7 per 1000, compared to 11.7 per 1000 in California, and 12.4 per 1000 in the United States. (Prepared by: San Bernardino County Department of Children's Services and HSS Legislation & Research Unit)

As of March 31, 2005, 2,087 pregnant women were screened for alcohol, tobacco and other drugs through the Perinatal SART (Screening, Assessment, Referral & Treatment) process in San Bernardino County. Overall, 43% of those pregnant women tested positive for substance use; that is, they were using alcohol, other drugs and/or tobacco during their pregnancy. (Prepared by: Public Health Program Analysis & Statistics, County of San Bernardino Department of Public Health)

In 2004 there were 6,514 minors detained in Juvenile Hall. In 2003, the Juvenile Arrest Rate in San Bernardino County was 29.2 per 1000, compared to 20.0 per 1000 for California, and 21.4 per 1000 for the United States. (Prepared by: San Bernardino County Probation Department, and HSS Legislation & Research)

The Child Mortality Rate in San Bernardino County is 64.2 per 100,000 children, compared to California, 52.5 per 100,000 (2001), and 66.5 per 100,000 in the United States. (Prepared by: Program Analysis and Statistics, County of San Bernardino Department of Public Health)

The 2003-04 San Bernardino County High School Graduation Rate is 85.1%, compared to California, 82.7%. (Prepared by San Bernardino County HSS Legislation & Research Unit, and Public Health Program Analysis & Statistics)

## San Bernardino County At-Risk Rates Compared to California and the United States

	San Bernardino County	California	United States
Children in Poverty <sup>1</sup>	237.5 per 1,000	183.8 per 1,000	173.5 per 1,000
Child Maltreatment <sup>2</sup> (0-17 years)	10.7 per 1,000	11.7 per 1,000	12.4 per 1,000
Juvenile Arrests <sup>3</sup> (0-17 years)	29.2 per 1,000	20.0 per 1,000	21.4 per 1,000
Child Mortality <sup>4</sup> (0-17 years)	64.2 per 100,000	52.5 per 100,000	66.5 per 100,000
High School <sup>5</sup> Graduation Rates	85.1%	82.7%

# Children's Network Activities & Outcomes 2005

# Children's Network 2005 Activities & Outcomes

---

## Children's Policy Council

- Continued Support of the Child Welfare Services Self Assessment process and forwarded recommendations to the Board of Supervisors.
- Implemented the process to track group home complaints in conjunction with AB 2149, the County sponsored group home legislation passed in 2004.
- Facilitated the procurement process for the Promoting Safe & Stable Family federal funds, and the Child Abuse Prevention, Intervention & Treatment funds, forwarded contract recommendations to the Board of Supervisors.
- Facilitated a joint procurement for enhanced RCL 12 group home beds with the Departments of Children's Services & Behavioral Health, forwarded contract recommendations to the Board of Supervisors.
- Forwarded recommendation to the Board of Supervisors to declare April 2005 Child Abuse Prevention Month in San Bernardino County.
- Began strategic planning process with the Juvenile Court to address the treatment needs of children and youth impacted by substance abuse.
- Continued the development of the SART system in conjunction with First 5 and other partners to screen, assess, and provide treatment services for children ages 0-5 who are at high risk for emotional/behavioral problems.
- Continued to facilitate the Drug Endangered Children Task Force in conjunction with the Sheriff's Office, the Departments of Children's Services and Public Health to insure a coordinated response for children found at methamphetamine drug manufacturing sites.
- Sponsored the 19<sup>th</sup> Annual Children's Network Conference: "Young Children, Adolescents, and Adults...The At-Risk Chain Reaction."
- Continued coordination activities with the Countywide Gangs and Drugs Task Force on early intervention strategies with youth at high risk for gang affiliation.
- Participated in the Mental Health Services Act planning process.

## Children's Fund

- There were 35,381 total children served by Children's Fund in FY 2004/2005.
- There were 2,929 children served through the Daily Referral Program.
- \$468,340 was expended to assist families with living expenses.
- \$19,997 was expended to meet the health care needs of children.
- \$110,812 was spent on proprietary projects.
- \$705,255 was spent on the Christmas Celebration of Giving.

## Child Care Planning Council

- The AB 212 childcare employee retention program completed its fourth year. There were 429 incentive stipends distributed to childcare employees totaling \$632,500.
- The Council awarded \$7725 in partnerships this year.
- On April 22, 2005, the Council collaborated with the Riverside County Child Care Consortium to co-host the 1<sup>st</sup> Annual Inland Empire Child Development Legislative Breakfast. Nearly 200 child care community members, educational leaders, and elected officials came to the event featuring Ronald Lalley, Ed.D., co-director, Program for Infant Toddler Caregivers, who was the keynote speaker.
- The Special Needs Subcommittee acted as the Advisory Committee to the SB 1703 Project, administered by KidsNCare (County Superintendent of Schools). This project has trained over 1000 childcare employees to help better serve the special needs childcare community.
- The Training Subcommittee purchased the website [www.ChildCareTrainings.org](http://www.ChildCareTrainings.org). This web site will be a free listing of trainings/workshops available to childcare employees throughout San Bernardino County.

Child Care  
Planning Council  
COUNTY OF SAN BERNARDINO

## Family Preservation Councils (Multidisciplinary Teams)

- Served 585 at-risk children through the regional Family Preservation Councils.
- Served an additional 62 at-risk children through consultation and referral.
- Prevented the need for foster care placement for 91.5% of the children referred.
- Diverted 74 from group home placement for an estimated savings of \$2.4 million (based on an RCL 12 group home rate of \$5,613 per month at a six month length of stay).

## Child Abuse Prevention Awards Breakfast

---

**2004 Lifetime Advocate  
Julian Weaver**

## Child Abuse Prevention Council

- Collaborated on the Child Abuse Prevention Campaign with cities throughout San Bernardino County. Received proclamations from cities, provided materials for city residents.
- Distributed over 230,000 relevant awareness pieces regarding positive parenting.
- Attended or was represented at 132 meetings, safety fairs, city council meetings, & other gatherings of residents in San Bernardino County.
- Tracked number of drownings & children left unattended in vehicles for long term analysis of incidents as they pertain to safety campaigns.
- Filled 70 orders for thousands of awareness materials provided to partner agencies.
- Hosted the Annual Children's Network Conference with more than 600 individuals attending. Several out-of-state & local workshop presenters provided regional professionals best practices in many disciplines.
- Joined the Far Southern Counties Regional Child Abuse Prevention Councils in statewide and regional themes and awareness campaigns.
- Hosted the Annual Awards Breakfast honoring individuals and professionals for outstanding work on behalf of abused children.

Children from Ontario's Maple Street Headstart entertain the audience.

2004 Honorees

# Interagency & Community Partnerships

## Interagency & Community Partnerships

In an effort to improve outcomes for children and their families, Children's Network helps to establish and support partnerships with other public and private child serving agencies throughout San Bernardino County and beyond. The following is a listing of some of the partnerships in which Children's Network is involved:

---

Head Start Shared Governance Board	Workforce Investment Board
County School Attendance Review Board	Youth Council
Countywide Gangs & Drugs Task Force	Perinatal Coalition on Drug & Alcohol Abuse
Juvenile Justice Coordinating Council	San Bernardino City & Ontario/ Montclair School Attendance Review Boards (SARB)
Law Enforcement Education Partnership	Family 2 Family Integration Team
Children's Lobby	Southern Region Child Abuse Prevention Coalition
Child Death Review Team	Southern Region Child Death Review Coalition
Montclair Community Collaborative	
First 5 Advisory Board	

## Children's Network Collaborations

Focus West Advisory Council

East Valley Community Collaborative

High Desert Partnership for Kids

Bear Valley Community Network

# San Bernardino County Demographic Data

## **CHILDREN & YOUTH DEMOGRAPHICS**

According to the California Department of Finance projections, there were 573,029 children and youth under the age of 18 years in San Bernardino County in the year 2005. This represented approximately 30% of the County's total population. Of the children and youth under 18 years of age in San Bernardino County, the highest percentage was among Hispanics (59.6%).

## CHILD DEATHS

From 1993 to 2003, there has been a general decrease in the childhood death rates among San Bernardino County residents less than 18 years of age. From 2002 to 2003, the overall death rate for children decreased by 0.8% and the natural childhood death rate decreased by 6%. However, in 2003, there was an approximately 23% increase from the year 2002 in the injury childhood death rate.

The overall childhood death rate among San Bernardino County residents was 63.7 per 100,000 persons less than 18 years of age in 2003. In the same year, the death rate due to natural causes was 48.5, and the death rate due to injury causes was 15.2.

# Child Death Review Team

---

The following table presents the Child Death Review Team's (CDRT) findings for deaths in 2004. Similar to the Fetal Infant Mortality Review process, information is obtained from parents, vital records, the Coroner's Office, and medical records. The intent of the review process is to identify factors or circumstances contributing to child deaths in the hope of preventing future occurrences. It should be noted that the conclusions of the CDRT may not match the counts by cause of death compiled from vital records.

## INFANT MORTALITY RATE

Since 1993, the number of infant deaths among San Bernardino County residents generally has been decreasing. In 2003, there was a 5% decrease in the number of infant deaths as compared to the previous year. In addition, there was an 8% decrease in the infant mortality rate during this same time period. The 215 infant deaths in the year 2003 represented an infant mortality rate (IMR) of 7.0 per 1,000 live births as compared to 7.6 per 1,000 live births in 2002.

NOTE: Infant Mortality Rate defined as infant (less than one year of age) deaths per 1,000 live births.

\*Simple Infant Mortality Rate defined as infant deaths in particular year divided by live births in that year, birth-deaths not matched.

## LOW BIRTHWEIGHT LIVE BIRTHS

The percentage of low birthweight births in San Bernardino County has fluctuated between 6.3% and 7.0% over the past decade. A low birthweight birth is defined as a live birth weighing less than 2,500 grams (5 pounds, 8 ounces). In 2003, 6.7% of all live births in San Bernardino County were low birthweight. This was a 4% decrease from the previous year.

\*Low Birthweight Live Births defined as live births weighing less than 2,500 grams.

\**Infant Mortality Rate* defined as infant (less than one year of age) deaths per 1,000 live births. *Infant Mortality Rate* suppressed for death counts less than five.

Note: Precaution when interpreting infant mortality rates based on death counts less than 20 because they may be statistically unreliable.

Exploitation	<1%	<1%	<1%	<1%	<1%
At Risk/Substantial Risk	12%	11%	11%	15%	15%
Not Available (referral still open)					4%

The above figures represent a 6.4% increase in referrals received between 2000 and 2001. 2002 referrals show a 2.44% increase over 2001 which represents a significantly lower rate of increase over the previous 2 years. 2003 referrals show a 4.4% increase over 2002 which represents a higher rate of increase over 2002. There has been an almost 10% increase in the number of referrals received in 2004 as compared to 2003. 2004 referrals received represent an almost 25% increase since 2000.

Demographics - Children involved in referrals are almost evenly split by sex. This ratio has remained constant over the years. The percentage of children age 8 and younger has remained the same as 2002 at 52%. In 2001 52% of children reported have been age 8 or younger. In 1999 42% were age 8 or younger. In 2004 51% of children reported were age 8 or younger while 17% were age 9-11 and 31% were age 12-18.

## Ethnic Breakdown

The decline in the number of children placed in county-licensed foster family homes has continued – down 4% since 2002. The increase in the number of children placed in Foster Family Agency Certified Homes has leveled off but has still shown a significant increase since 2000. In addition there has been a 10% decline in relative placements since 2000.

Group Home placements have maintained their growth at 9% of placements in 2004. There has been a 3% increase in the number of group home placements since 2000.

# SART

---

## The SART Model of Care for High-Risk Children In San Bernardino County (Screening, Assessment, Referral & Treatment)

### *SUMMARY*

#### **The Need for SART...**

- In 2004, over 57,000 children were referred to Child Protective Services (CPS) in San Bernardino County.
- 80% of these children came from families in which substance abuse is a problem.
- Among over 2,000 pregnant women screened in SBC, 43% were using alcohol or illegal drugs during the pregnancy.
- Maternal substance abuse during pregnancy can cause changes in the structure and function of the developing fetal brain.
- Child abuse and neglect cause further changes in the young child's brain.
- Children with changes in brain structure and function can suffer mental retardation, learning problems, and severe behavioral difficulties.
- Children growing up in homes in which there is abuse, neglect, or substance abuse are much more likely to develop attachment disorders, which complicate the behavioral and learning problems even further.
- If these children do not receive early identification and treatment services before age 5, they are at risk for multiple failed foster care placements leading to institutionalization, school failure, and incarceration as juveniles or adults.
- San Bernardino County spends over \$6 million per month for over 2000 of those children, who in their teens exhibit emotional and behavioral problems that require institutional care.

#### **The SART system will...**

- Ultimately, improve long term outcome of the children, as measured by developmental, behavioral, and mental health status; school readiness; and permanency placement.
- Systematically screen all children birth to five years of age starting with children who enter CPS care.
- Provide comprehensive medical, developmental, and mental health assessment that will evaluate all levels of brain functioning in the young child.
- Develop a treatment plan that addresses the young child's specific needs.
- Link the child/family to available treatment services in San Bernardino County (e.g., Regional Center, school-based special education programs) so as to avoid any duplication of services.
- Work with local universities to develop young professionals thereby expanding treatment capacity.
- Establish three centers across the County that will provide a continuum of treatment services based on the child's specific needs rather than based on eligibility.

- Optimize the use of existing resources in the community by reducing duplication of services (e.g., case management).
- Leverage state/local and federal funds to maximize and sustain operational funding.
- Save money across County systems by utilizing existing resources complemented by additional funds to support the SART system infrastructure.

#### **Funding for the SART system is required....**

- The SART system will maximize revenue from Medi-cal
- County funds supplemented by matching federal funds will pay for evaluation and treatment of mental health disabilities.
- Federal funds and third party reimbursement will be utilized to pay for medical evaluation and treatment.
- Private monies will be required to cover those services that are not covered by county and federal funding as well as for the operational infrastructure required to support this comprehensive system of care.

#### **The SART system will save money...**

- Early intervention prevents escalating mental health problems in the child and reduces the need for school-based services.
- Early intervention improves school readiness, decreasing the need for special education services.
- Family-based interventions reduce the inappropriate use of the health care system, especially in emergency room visits.
- Family-based interventions reduce the need for foster care services.
- For those children in the foster care system, early intervention enhances permanency placement, reducing the length of time the child is in foster care.
- Family-based interventions reduce relapse of drug use in the parents.
- The mother's abstinence from drugs after the child is born produces a higher IQ in the child at school age.
- Long-term benefits accrue for children who receive early intervention, reducing the need for more intensive placements such as group homes at an older age.
- Developing a SART "system" complete with an evaluation component will foster sustainability,

# Children's Fund

Presents All Around!

# Appendix 3

# Children's Fund Annual Report

July 1, 2004 – June 30, 2005

*Despite a very difficult economy, it has been an extraordinary year of accomplishments for Children's Fund. It is only through the dedication, commitment and efforts of our Board of Directors, Staff, the Claremont/West-End and Bonnes Meres Auxiliaries, the County of San Bernardino, Donors and Volunteers that we continue to make a difference in the lives of at-risk children, in San Bernardino County. All of these individuals and organizations truly embody the humanitarian spirit; in its purest form ... to all of you we are deeply indebted!*

## PURPOSE

The purpose of Children's Fund is to ensure that children who are at risk in our community because of abuse, neglect, abandonment or circumstance receive adequate food, shelter, clothing, health care, education and are provided equal opportunity for social development. Children's Fund is a private, not-for-profit 501(c)(3) organization that calls to action private business, the public sector, and concerned citizens to form a public/private partnership.

## HISTORY

Children's Fund was established in 1986 by the Board of Supervisors as the non-profit component of San Bernardino County's model agency, Children's Network. It was designed to be a true public/private partnership. The county provides modest funding for administrative overhead, so every dollar raised by the Fund goes directly to meet the needs of newborn to eighteen-year-olds that are at-risk in San Bernardino County. Goods and services that are not available through other agencies are provided through Children's Fund.

## BOARD OF DIRECTORS

In 2004/2005, Dianne Crowther, The Perfect Look, Interior Design, serves as Children's Fund's first Chairwoman of the Board, for the 30-member Board of Directors. Bill Nietschmann, Senior Vice President & Manager of City National Bank, serves as Vice Chairman. Founding Chairman Emeritus is Jack Brown, CEO, President and Chairman of the Board of Stater Bros. Markets. The all-volunteer board is comprised of successful businessmen and women who share a concern and desire to do something positive about the plight of underprivileged and abused children. By design, the Board has a broad base of representation that takes into consideration not only geography, but cultural backgrounds and special interests as well.

## MEETING FORMAT

The Children's Fund Board of Directors meets monthly at a previously designated time and place. The Executive Committee of the Board of Directors, which is comprised of the Officers of the Board, also meets monthly at a previously designated time and place. The Chairman of the Board chairs both meetings, and minutes of the meetings are maintained in the Children's Fund

office, which is located in the County Government Center. Committees of the Board consist of: Executive, Marketing-Fund Development, Program: Major Allocations and SART, President's Circle, and A. Gary Anderson Golf Tournament.

## AUXILIARIES

Children's Fund enjoys the support of two auxiliaries, Bonnes Meres Auxiliary in Redlands and Claremont/West End Auxiliary. Both are seasoned fund raising groups, and together their efforts contributed \$132,000 to Children's Fund in 2004/2005. Additionally, the auxiliaries support the mission of the agency by heightening public awareness regarding at-risk children.

*Smiling Faces of Children's  
Fund Programs*

## SERVICE DELIVERY

Social Workers/Case Managers from any of the many member agencies of Children's Network; agencies such as Department of Children's Services, Public Health, County Schools, and community-based service organization members are eligible to submit a request for resources needed by a child on his/her caseload. In 2004/2005 in excess of 3,000 requests were filled, and more than 60,000 children were served through both the Daily Referral Program and the Celebration of Giving Campaign.

Children's Fund serves children under three major categories: *Daily Referral Activity, Community Outreach and Proprietary Projects.*

**Daily Referral Activity:** We consider this to be our first priority. Requests that are made daily by case manager/social workers fall under this heading, and include such necessities as

diapers, emergency food, clothing, medical care, cribs, beds, car seats, health care, and social development. The greatest number of these referrals are for items costing under \$200.00, but are not available elsewhere and are essential to a child's well being.

**Community Outreach:** Included in this category is the annual Celebration of Giving Holiday project, as well as pediculosis control funding support, the April Child Abuse Prevention Month, and much more. In addition, Children's Fund served as the fiscal agent for a grant with the Centers for Disease Control. This grant was designed to target teen pregnancy reduction and is a collaborative with Children's Network, Loma Linda University School of Public Health and the Department of Public Health.

### **Proprietary Projects**

This particular category includes two major projects that are viewed as priorities by Children's Fund Board of Directors.

**Education First:** School program for students who are homeless and not enrolled in school has completed its ninth successful year of holistically attending to the needs of homeless children and their families through case management. Other agencies intricately involved in Education First are the San Bernardino City Unified School District, County Superintendent of Schools, Community Services Department, Department of Public Health, Department of Public Social Services, the Homeless Coalition, and the Children's Network. In 2000, Children's Fund provided dollars to hire a Public Health Nurse to the Case Management team to address the health concerns of the children and families.

**The Children's Assessment Center:** This Center receives special attention from the Children's Fund. The role our agency plays here is to provide for those things not available through the other participating agencies. Other significant agencies contributing to the Children's Assessment Center include the Department of Public Social Services, Department of Public Health, County Medical Center, County Counsel, Loma Linda University Children's Hospital, District Attorney, Sheriffs' Department, Children's Network, Juvenile Court and Family Court Services. The center provides medical examinations and forensic interviews for children who are suspected of having been sexually and/or physically abused. In 1998/99, Children's Fund Board of Directors embarked on a capital campaign to purchase land and a building to permanently house the Center. The Center officially opened in November of 1999.

**Total Cash/In-Kind Expended in 2004/2005 = \$1,881,895**

### **FUND RAISING ACTIVITY**

Children's Fund is proud that for nine years in a row it has exceeded the \$1,000,000 mark, and since inception in 1994, has now raised \$17,931,359 for the children at-risk in the community. In 2004/2005 the gross revenue was \$2,246,000, which includes all donations, both monetary and in-kind, and gross dollars raised on events.

**Grants:** In the area of grant funding, and as stated under our community outreach, Children's Fund was once again the fiscal agent for a grant through the Centers of Disease Control to target teen pregnancy reduction. Additionally, we received a \$77,750 in grants from The Los Angeles Times Mirror Foundation, Bank of America, Kaiser Permanente, The Matich

also the recipient of grants for emergency medical needs for children throughout San Bernardino County, emergency needs in general such as food and clothing in the City of San Bernardino, and support of the Education First program.

**Cash & In-Kind:** Cash is broken down by major sources of revenue. The primary revenue sources include:

<i>President's Circle:</i>	\$86,000
<i>Auxiliaries:</i>	\$132,000
<i>Golf Classic:</i>	\$430,000
<i>Celebration of Giving:</i>	\$705,000 (cash & in-kind)

**Gross Fundraising Revenue for 2004/2005: \$1,353,000**

**Total Revenue Generated for 2004/2005: \$2,246,000**

San Bernardino County's In-Kind *support* continues to sustain our administrative overhead. This contribution empowers Children's Fund to designate **100%** of our fundraising contributions to serve at-risk children throughout San Bernardino County. The *General Donations* include the support of the many individuals, Corporations, and our County Employee Contributions.

### Special Programs San Bernardino County, 2004-05

Special Programs information will be posted when it becomes available.

Numerous special programs serve students who meet certain criteria. Assistance is provided in different ways, such as a hot meal during the school day or extra instructional time. Participation may vary from year to year depending on student enrollment.

[BACK TO TOP](#) ↑

### Alternative Education San Bernardino County, 2004-05

	Alternative Enrollment	Percent of Total Enrollment
<b>Continuation Classes</b>	5,047	1.2%
<b>Community/Experience Based</b>	110	0.0%
<b>Opportunity</b>	870	0.2%

A variety of alternative programs meet specific student needs in addition to the regular educational program. These alternative courses of study may be mandated (as with a continuation high school) or optional (as with a magnet school). With the exception of independent study and magnets, these programs largely serve high school students.

<b>Magnet</b>	3,894	0.9%
<b>Pregnant/ Parenting</b>	467	0.1%
<b>Independent Study</b>	7,078	1.7%
<b>Other</b>	817	0.2%
<b>Total</b>	<b>18,283</b>	<b>4.3%</b>

[BACK TO TOP](#) ↑

About a quarter of California's public school students need to learn English in order to succeed in school. The percentages are highest in the early grades -- approximately 36% of K-3 children in 2004-05. Of the 60+ languages in classrooms, by far the greatest number of English learners, more than 85%, speak Spanish.

A grade-by-grade list of the languages reported in California schools is at [DataQuest](#).

## High School Performance

# Welfare Data

## Appendix 5

# County Residents Receiving Aid Distribution By Cities

Prepared June 2005  
(Based on data as of January 1, 2005)

Attached is information concerning distribution of CalWORKs (cash benefits), Food Stamps, and Medi-Cal in the cities and communities in San Bernardino County. The benefit populations refer to persons not cases. In 2004, a new automated eligibility and benefit determination system was implemented to improve service to those in need. In addition, new state regulations and programs have increased participation in the Food Stamp and Medi-Cal programs which are often a critical support to low-wage working families. Receipt of CalWORKs has continued to decline which may be a result of the rapid increase in employment opportunities that is currently occurring in our county. While CalWORKs participation has decreased, the increase in Medi-Cal and Food Stamp participation has caused the total amount that these programs contribute to the economy of San Bernardino County to increase to 1.8 billion dollars.

Exhibit I ranks the cities with cash benefits as a percentage of the general population. The ranking ranges from a high of 12.5% for the City of Barstow to a low of 0.4% for Chino Hills. Exhibit IA displays this information graphically.

Exhibit II displays the financial value of assistance, which includes CalWORKs, Food Stamps, and Medi-Cal, by assistance category and by total for each city. For example, the annual financial value of assistance in the City of San Bernardino is approximately \$411 million dollars. The value of assistance is based on statistics from CalWORKs and Food Stamp benefit disbursement and the California Department of Health Services.

# Cities' Cash Benefit Population Ranked By Percentage of Population

At January 1, 2005

# Behavioral Health Department

## Appendix 6

## San Bernardino County Department of Behavioral Health 2004 / 05 Annual Report

The county's Mental Health Plan (MHP) is comprised of the Department of Behavioral Health (DBH), its contract agencies, and fee-for-service network of providers. The spectrum of services includes case management, family and individual counseling, referrals, and crisis response capability.

The Children's Inpatient Unit at Arrowhead Regional Medical Center was closed in 2004 and, at present, children and youth who require hospitalization use either contracted or private hospitals.

### Number of Children and Youth Served by the MHP

The number of children and youth receiving services from the MHP rose 18% from fiscal year 2003/04, a much larger increase than the growth in population of minors in San Bernardino County.

The numbers of minors in each age category is shown in the table below, with the percent change from last year provided in the right-hand column. While there was a significant increase in each age group, the largest growth in minor clients served was in the 11 to 15 year age range.

### Age Categories of Unduplicated Minors Served

Age Group	FY03/04	FY04/05	Change
0-5	927	1,122	17%
6-10	5,597	6,313	11%
11-15	1,751	2,464	29%
16-18	3,639	4,569	20%
Total Unique Minors Served	11,914	14,468	18%

### Characteristics of Minor Client Population

As shown in the demographics section earlier in this Report, the gender ratio of our county's children and youth is approximately 49% male and 51% female. However, the ratio among minors who receive services from the MHP is approximately 39% female and 61% male. This disparity is not different from prior years, and likely reflects the higher incidence of young males receiving mental health in the juvenile justice systems and identified by schools and parents as having behavior problems.

### Gender of Minors Served by MHP

The race/ethnicity distribution of minors served demonstrates the well-known disparities between community demographics and the groups that access mental health services. For example, although over half of the county's population is now of Latino or Hispanic ethnicity, less than a third of the youth seen by the MHP are of this ethnicity.

The table below shows the racial/ethnic distribution of those served by the MHP during the past fiscal year.

### Race/Ethnicity of Minors Served

## Where Were our Minor Clients Born?

The vast majority of minors served by the MHP were born in California. Only 2% are known to have been born outside the U.S.

## Mental Health Disorders and Diagnostics among Minors

Each minor served may have more than one treatment episode during a fiscal year, and each episode carries its own diagnosis. In FY04/05, the MHP shows almost 23,000 episodes open at some time during that period. That represents an increase of 17% from the previous fiscal year.

The non-substance diagnostic categories for the disorders carried by those episodes are shown in the table below, along with the increase or decrease in frequency from FY03/04.

Diagnostic Category	FY03/04	FY04/05	Change
ADHD and ADD	4,380	5,482	20%
Adjustment Disorders	2,113	2,684	21%
Anxiety Disorders	422	581	27%
Behavior and Conduct Disorders	3,720	4,198	11%
Bipolar Disorder	778	822	5%
Major Depression	2,770	3,740	26%
Other Mood Disorders	2,903	2,813	-3%
Other Disorders	674	937	28%
Pervasive Developmental Disorders	111	146	24%
Psychotic Disorders	616	641	4%
Post-Traumatic Stress Disorder	479	680	30%
	18,966	22,724	17%

Although some categories show a large change in percentage, among the most significant shifts noted in this table is the increase in the number of minors being diagnosed with major depression, Attention Deficit / Hyperactivity spectrum disorders, and adjustment disorders.

### Increased Programs Expected Under the Mental Health Services Act

With the funds that will be made available under the voter-passed initiative known as the Mental Health Services Act (MHSA), DBH expects to increase the availability of services and add new types of services over the next few years.

For example, the Transitional Age Youth group, which includes people between 16 and 25 years of age, has historically been offered only limited services, and the services offered were not specifically tailored for the needs specific to that age. With MHSA support, DBH will develop programs for appropriate housing, prevention and outreach, and peer-led support activities.

Based on census and prevalence data, the chart below illustrates the difference in treatment capacity and the estimated number of minors in need of behavioral health services.

*Challenged to Excellence*  
**PROBATION**  
COUNTY OF SAN BERNARDINO

## Appendix 7

## *San Bernardino County Probation Department Programs and services to the youth*

### *YOUTH ACCOUNTABILITY BOARD*

A collaborative effort of the Probation Department, local law enforcement and local citizen volunteers, the Youth Accountability Board (YAB) Program has been active since 1991. Today, there are 24 boards in operation, comprised of over 400 volunteers countywide, which work to divert non-violent first time juvenile offenders from the Juvenile Justice System. During 2004, the Probation Department and the Informal and Juvenile Traffic Court referred 821 minors to the Youth Accountability Board Program, for diversion services.

Prior to the Board "hearing" the referred case, a social investigator interviews the minor and his/her parents, to gather relevant information regarding the minor's background, school history and family dynamics, in order to determine how the Board can best assist in the minor's rehabilitation process. Following the hearing, the Board places the minor on a mutually agreed upon contract which may include completing community service hours, classes such as Victim Awareness, Petty Theft and Anger Management, participating in tutoring sessions and/or attending "formal" counseling depending on the offense and the needs of the minor. Each minor is assigned a mentor to track the case and assist the minor to fulfill his/her obligations, thus creating a sense of responsibility for his/her behavior.

### *SCHOOL PROBATION OFFICERS*

School Probation Officers serve on a variety of school campuses in several districts throughout the County. They work closely with school administrators, teachers, parents, security personnel and high-risk youth. Students with behavior problems are targeted for intervention, in order to deter further contact with law enforcement or the juvenile justice system. These youth are monitored for attendance, academic performance and behavioral issues. The probation officer may conduct in-service training for school security, teachers, counselors, and administrators. The Probation Department corroborating with the school districts has proven beneficial for the at-risk and low-risk juveniles that require the additional support. For 2004, each of thirteen (13) Probation Officers worked with an average of four (4) new referrals each school day, for a total of 15,600 referrals during the year.

### *COMMUNITY SERVICE TEAM/QUICK DRAW*

The Community Service Team/Quick Draw Program has fifteen (15) CST/QD officers assigned to law enforcement agencies throughout the county. The officer's two primary functions are to provide initial evaluation of all out-of-custody arrests and to provide services to divert juvenile offenders from the Juvenile Justice System through appropriate diversion program referrals and informal supervision pursuant to W&I 654 and W&I 654.2. In addition, they provide valuable liaison services between law enforcement, probation and the district attorney's office. Overall, during 2004 CST officers handled 6,194 of the 8,551 cases submit by law enforcement.

Of the 2,679 cases submitted to the District Attorney's Office, requesting a petition be filed, 689 resulted in the minor being placed on Informal Probation and supervised by CST Officers, pursuant to W & I 654.2. Officers settled 2,387 cases out of court by placing minors on short-term SOC contracts, which include consequences such as paying victim restitution, performing community service and/or completing Anger Management, Petty Theft or Victim Awareness classes. Informal Probation supervision services, pursuant to W & I 654, without court involvement, were provided to 307 minors and an additional 821 minors were provided diversion services, by their local Youth Accountability Boards, which are coordinated and supervised by CST officers.

As a result of the various services provided by the CST program 3,515 cases were diverted away from the Juvenile Court, saving valuable time and resources for more serious matters and another 689 cases were provided services after being referred by the court for Informal Supervision.

### *JUVENILE INVESTIGATIONS*

The Juvenile Investigations Units are responsible for providing Fit & Proper and Dispositional reports to the court, which include a recommendation such as Probation, Placement or CYA. These units also respond to the court's requests for information regarding restitution, school attendance and parental information. They also complete case plans mandated by AB 575.

The primary function of Juvenile Investigations is to provide the Court with a social study of the minor before the Court for disposition. The study results in a legally required report which assists the Court in "sentencing" the juvenile. The recommendations submitted to the Court include: Deferred Entry of Judgment, Informal Probation, Summary Probation, Wardship and Formal Probation, Placement, and California Youth Authority. Once the investigation is complete and the Court imposes disposition, the case is transferred to the appropriate unit to comply with the Court's order. Investigators completed 2,928 investigations for 2004.

### *JUVENILE CASE MANAGEMENT*

24 Probation Officers from the three regions, San Bernardino, West Valley, and the Desert, are assigned to Regular Juvenile Case Management Caseloads. They supervise juvenile offenders on wardship and nonwardship terms of supervised probation. At the end of 2004, 1,960 juveniles were under supervision. During 2004, Probation Officers made 435 arrests. They conducted 945 searches, and confiscated 26 weapons and 91 items of contraband. 3,985 counseling/community service component referrals were given to juvenile probationers, and 2,385 of those components were completed, a 60% success rate.

### *YOUTH JUSTICE CENTER*

Since 1996, the Youth Justice Center (YJC) has provided a wide range of law enforcement, treatment and educational options for at-risk youth and their families. Component programs offered include, anger management, weapons diversion, petty theft, victim awareness, tutoring, communication skills workshop, drug and alcohol prevention and parenting classes. The Youth Justice Center is also the site of community for community service projects through the Bridges Program.

A significant element of the YJC is the Galaxy Community School. This school serves middle school through high school students who have been suspended or expelled from their respective school districts. The student-body population began the current school year with nineteen (19) students but that number has since increased to sixty-five (65) students.

The Juvenile Supervision Unit is also located at the YJC. This unit is comprised of twelve (12) probation case managers and a supervisor. The supervision unit is scheduled to become an "armed" unit in the near future.

In December 2005, the Center is scheduled to relocate back to its original site in the Juvenile Hall Juvenile Court complex at 900 Gilbert Street in San Bernardino.

### *HIGH DESERT DAY REPORTING CENTER (HDDRC)*

December 2004 completed the second full year for the Probation Department's on-site Community School and AB 1913-funded counseling and component classes at the HDDRC in Victorville. High Desert Project Focus has been instrumental in working with the Probation Department to open and operate the Center. High Desert focus volunteers and Board Members continue to provide guidance and financial support to the HDDRC. Prior to the opening of the HDDRC there were minimal and inconsistent juvenile counseling facilities in the High Desert.

There have been over 2,800 minors referred to classes, programs, family counseling services, and tutoring since the opening of the HDDRC in October of 2002. There are currently over 600 minors attending classes each month, Monday through Thursday, at the HDDRC and with off-site providers in the community. Ongoing referrals are received from the superior courts, traffic courts, schools, concerned parents, Probation Officers and other county agencies. Additional classes were added in 2004 due to an increase in referrals and classes having long waiting lists. Classes range from Anger Management, Substance Abuse, and Petty Theft Diversion to more intensive classes to meet adolescent psychological needs.

There were between 300 and 600 minors attending programming each month in 2004. Additionally, over 248 families received individual counseling and tutoring in the community with 7 counseling providers. The HDDRC has 3 dedicated Volunteers in Probation who assist in the various components of the HDDRC.

### ***SUCCESS PROGRAM***

The Success Program provides intensive supervision to high-risk juvenile offenders who are potential candidates for removal from the home of their parents into private placement. Through the use of intermediate sanctions and close supervision, the parents of Success minors have been provided additional alternatives to control negative behavior. During 2004, Probation Officers averaged approximately 455 cases each month, of which more than 75% of the minors in the program completed probation and were dismissed or were stabilized enough to transfer to regular supervision caseload.

### ***PREVENTING REPEAT OFFENDERS PROGRAM (PRO)***

The PRO program, aimed at reducing crime among a small group of juvenile offenders who may be at the greatest risk of becoming serious repeat offenders, concluded in January 2004.

### ***INTERVENTION & MANAGEMENT OF PROBATIONER ACCOUNTABILITY AND COMPLIANCE OF TERMS (IMPACT)***

IMPACT is now in its third year of a cooperative partnership, funded by a grant from the Federal Bureau of Justice Administration, involving a Probation Officer and a San Bernardino Police Officer. The program is designed to positively influence the lives of "at risk" youth. The IMPACT team works nights in the city of San Bernardino. The mission of IMPACT is intervention, prevention and enforcement. The team will make a variety of contacts with minor on probation and those who are not. This dual hat approach has been very effective in the inner city allowing for more nighttime visibility of a probation officer as well as police patrol response.

When contacting probationers the team ensures that minors are in compliance with their terms and conditions of probation. Probation officers can request that the team help make contact with minors who have fail to report to probation. IMPACT team averages 32 probation contacts a week. The team has been very involved in the documentation of gang members that live within the city limits. This documentation has assisted police efforts in solving crimes. Overall IMPACT has become a mainstay in the city of San Bernardino and has had a modest effect on crime.

### ***CAMP HEART BAR***

During 2004, Cadets at Camp Heart Bar performed 12,726 hours of supervised work in the National Forest, which is a labor cost value of \$254,520.00. The cadets have also completed over 1,000 community service hours as well. Some of those projects included cleaning animal cages at Moonridge Zoo in Big Bear on Saturdays, splitting firewood for Morning Star Campground and clearing weeds at Prospect Park in Redlands. They also provided landscaping and maintenance assistance at Wildhaven, an animal assistance center. Cadets helped maintain walking trails at the Early Man dig site at Calico in Barstow, assisted with traffic control for the Redlands Bicycle Classic, the Guasti Mana 5K run and the 2004 Olympic cycling trials held in Moreno Valley. For the third consecutive year they assisted at-risk youth at their annual fishing derby at Jenks Lake and helped with trash clean up at Yucaipa Regional Park after their 4th of July fireworks celebration. The cadets performed numerous Color Guard ceremonies again last year for Departmental and community activities.

The Camp is very proud of the fact that, again this year all of the cadets that took the Food Handlers examination successfully passed it making it three consecutive years that no one has failed the exam.

The camp also had two cadets successfully complete a two-week Fire Academy conducted by the US Forestry Department and California Conservation Corp. The Mojave Greens Fire Crew in Victorville currently employs one of those cadets.

The cadets participated in a number of field trips both fun and educational this past year. They visited the Reagan Library, Museum of Tolerance, art museums in Santa Monica and the March Air Force Base museum. They saw plays at both the Redlands Bowl and Foot Lighters Theater and enjoyed fishing trips to Corona Lakes.

The program added three new components this year. Cadets now get CPR and First Aid Training, which are certified through the American Red Cross. We added a Reality Babies program where cadets have to care for a baby doll that has all the functions of a real baby which they have to respond to all it needs. The last component added was the Male Improvement Program, which is provided through the Public Health Department, which emphasizes what a man's responsibility is pertaining to relationships and his own sexuality. We continue to get letters throughout year thanking program staff for impacting their child's life and how their child has changed due to their Heart Bar experience. It is also important to acknowledge Heart Bar Program staff for their hard work and dedication to the program and the clients they serve given the unique environment they work in.

#### ***REGIONAL YOUTH EDUCATIONAL FACILITY - BOYS & GIRLS PROGRAMS***

The Regional Youth Educational Facility (RYEF) is a residential treatment facility for juveniles operated by the San Bernardino County Probation Department. At the beginning of 2004, RYEF relocated to a remodeled building and the RYEF boys and girls (formerly Kuiper Youth Center or KYC) programs came together to be housed under one roof.

The Boys program is a 6-month program for 16 to 18 year old males, operating at this time with a 20-bed capacity. Program Components include:

- Anger Management
- College and Trade School Classes
- Community Service Projects
- Competency Based Remedial Education
- G.E.D. Preparation and Testing
- Gang Intervention
- Independent Living Skills
- Part-time Employment
- Regional Occupational Program
- Substance Abuse Intervention
- Victims Awareness Program

The RYEG Girls program is a 30 bed, six-month program designed for female offenders from 14 to 18 years of age. The program is known for working with chronic runaways, and girls with mental health issues. Program components include:

- Anger Management
- College and Trade School Classes
- Community Service Projects
- Remedial Education
- Regional Occupational Program

- G.E.D. Preparation and Testing
- Independent Living Skills
- Parenting and Sex Education
- Part-time Employment
- Self-Esteem
- Sexual Assault
- Substance Abuse
- Victim's Awareness

In October of 2004, the programs came together with Camp Heart Bar minors for the Annual KIT Games, where the minors compete in various athletic and academic challenges. Probation, County Schools, and the US Department of Forestry sponsored the event, which was a huge success.

#### PLACEMENT SERVICES

The focus of 2004 was centered on the "ramp up" and opening of the one-hundred forty-four (144) bed Lodge Makers facility in Hesperia, California. Of this total, San Bernardino County has seventy-two (72) beds committed to the treatment of our youth.

During 2004, the number of minors maintained in court-ordered out-of-home placements averaged 262 per month, at an average cost per minor of approximately \$4,617.00 per month. In addition, an average of approximately forty-three (43) minors were detained in our Juvenile Detention and Assessment Centers pending suitable placement per month. The average number of minors in placement declined significantly from 2003 by some 34 cases per month.

#### AFTERCARE UNIT

The San Bernardino County Probation Department Aftercare Unit's mission is to assist in the successful transition of post-placement youth as they return to the community. Aftercare officers maintain regular contact with probation youth and attempt to bridge successes achieved in placement, with the realistic challenges they face upon returning to their respective homes. Aftercare contact also includes interaction with the minors' parents, the local schools and community resource providers. Once minors have been able to establish and maintain a stabilized pattern of responsible behavior in the community, their case is referred to the Court for discharge from Probation supervision. The average period for Aftercare supervision ranged from three to six months.

The Aftercare Unit works with the Placement Unit in regards to the specifics of a minor who will be coming to Aftercare supervision and continuing implementation of the established case plan. Aftercare also works with the Independent Living Skills Program (ILSP), which is a valuable resource that assists youth with acquisition of basic life skills, career exploration and job preparation.

Throughout 2004, the Aftercare Unit worked with an average of 200 youth per month, who were located throughout the county. This is a challenging situation considering that only 10 (ten) probation officers service the entire county. Nonetheless, the Aftercare staff has been up to the challenge and consistently provides quality case management services to our Probation youth and their families.

### *INDEPENDENT LIVING SKILLS PROGRAM*

The Independent Living Skills Program (ILSP) is a federally funded, nationwide program designed to provide basic life skills, career exploration and job preparation for probation youth who have been in private out-of-home placement. The motto of ILSP is "Anchoring Positive Change in Youth."

The graphs below highlight the allocation of funding and the result of program assistance given to youth enrolled in the program as well as illustrate some of the successful program outcomes such services have helped create.

Approximately 50 minors per day were on the House Arrest Program in lieu of incarceration in Juvenile Hall.

Approximately 1,700 minors participated in the Day Reporting Center Programs throughout the County.

**Youth in various stages & programs while in custody**

# San Bernardino County Sheriff's Report

## Appendix 8

**The Sheriff's Department** is wholly committed to the concept and implementation of community-oriented policing in the pursuit of greater protections for youth; in fact, our Department was an early pioneer in the development of COP programs. Early on, we had devised an extensive Neighborhood Watch program, and were among the first to participate in DARE. The Department was soon designing programs of its own, including such success stories as the "Choices" juvenile delinquency program, and the Operation CleanSWEEP school safety program. The Department pounced on the idea of Arizona's Crime Free Multihousing program, and imported it to San Bernardino County. And, working in collaboration with other local law enforcement agencies, the Department was instrumental in forging the SMASH anti-gang program. It also works closely with County agencies to care for drug-exposed children at clandestine drug lab sites.

The **Juvenile Intervention Program** is part of our approach to alleviating the problem of juvenile misbehavior. Referred youth are taken on guided tours of county jail facilities. While there, the teens are confronted with inmates who take them to task for their delinquency, and the young people are made to wear prison garb and eat prison food. This is not a "Scared Straight" program in the usual sense of the term: the emphasis is not on terrorizing the program participants, but on simply familiarizing them with the whole incarceration experience. It is hoped that this 4-to-5-hour education will open the eyes of still-impressionable youth, and deter them from criminal acts in the future.

For the year **2004** JIP hosted **17** jail tours at our Central Detention Center and one at the Barstow facility in the high desert. Over **200** youth participated in these excursions. Current follow-up investigations reveal that **72%** of these kids are responding favorably to the experience, as reported by their parents. **Eighteen** percent have shown no change in their behavior and/or outlook. **Ten** percent are unaccounted for, due to the tendency of many of our families to move about frequently.

The Department's **Crimes Against Children** unit works tirelessly to prosecute those who victimize children, and its numbers speak of its success: in the last twelve months the unit has made **162** arrests for PC 288 (lewd and lascivious acts with a child), **45** arrests for PC311 (child pornography), **25** for PC 273(a) (willful harm to a child), **fifteen** for PC 290 sex offender violations, and **nine** for "mental abuse" violations.

Many of the Children's Network partners are familiar with the Sheriff's **Operation CleanSWEEP** school safety program, which has been helping make more secure campuses since 1997. Some **50,000** schoolchildren throughout the County are served by this innovative mix of elements, which includes juvenile citation, security assessments, educational presentations, and crisis response training. School administrators are actually trained in the writing of citations for crimes committed on campus, and those same administrators report a **90 to 95%** level of satisfaction with the program. By bringing guest speakers on campus, and by lending a helping hand to school disciplinary efforts, CleanSWEEP helps kids by making their school environments safer and more conducive to learning.

Operation CleanSWEEP  
San Bernardino County Sheriff's Department

**In Pursuit of Justice**

**SAN BERNARDINO COUNTY  
DISTRICT ATTORNEY'S OFFICE**

**Appendix 9**

# Mission Statement

**Truancy is often the gateway to juvenile delinquency and more serious adult crime. We want to help keep children in school and out of trouble by assisting schools and others involved with children. The San Bernardino County District Attorney's Office has made *reducing truancy a priority.***

The L.E.T. Project offers a new service to the public by the District Attorney's Office with 3 lawyers working with schools in 3 different geographically located juvenile offices along with 19 other attorneys to get children back in class. It has been funded through AB1913 funds since 2000 and to date has intervened with more than 18,000 students and families.

The lawyers assigned to the LET program (Let's End Truancy) are in elementary and middle schools working with school personnel, school resource officers and probation officers getting kids back into school. They travel the county, visiting school sites, attending SARB meetings, speaking to public groups of parents and doing what ever needs to be done to combat the problem of truancy. And when all else fails, they can file criminal charges against parents and minors for failure to attend school and following those cases to their conclusion. This is a non-traditional role for a prosecutor! The goal is to avoid prosecution and prevent the problem in the first place.

Through these partnerships, each department's program is enhanced and the residents of the County are better served. Because truancy is a problem where everyone loses, it is **critical** that we all work together to resolve it. The L.E.T. Project makes this possible.
